

Predecision for VECTOR: Five

A VECTOR RETURNS SOLUTION

AUTOMATES DECISIONING

Predecision for VECTOR: Five increases VECTOR: Five's performance by automating the decisioning of items before they ever enter the VECTOR: Five system. Predecision for VECTOR: Five works by automatically handling routine returns so no manual intervention is required. Predecision for VECTOR: Five is so efficient that our customers have reported a 50 - 75% reduction in manual handling of incoming returns. Turn this new reality into profit for your bank!

IMPLEMENTATION MADE EASIER

Predecision for VECTOR: Five is designed to fit your needs. Predecision for VECTOR: Five is interfaced with Capture for Returns or can be interfaced to receive a file from your existing returns capture application. It is flexible enough to work with all types of equipment, accommodating any equipment platform you desire.

CUSTOMIZE FOR IMPROVED CONTROL AND CONSISTENCY

Predecision for VECTOR: Five uses a Default Decision Matrix to make consistently accurate decisions based on institution or customer instructions established in VECTOR: Five's Special Instruction File. With this level of customization, the decisioning process can be tailored to meet your needs and the customer's specific needs. Customized parameters include:

- Whether or not the depositor can be identified automatically in the All Items file
- Special instructions from the customer
- Return reason
- Number of times presented
- Your bank's default decision rules

Each decision is analyzed according to strict decision-making parameters to guarantee a high level of reliability and consistency in return decision handling.

Predecision for VECTOR: Five works with VECTOR: Five and Capture for Returns to accelerate your item processing system. It is just one member of the Metavante Image Solutions family of software dedicated to serving financial institutions.

Metavante Image Solutions is a leading provider of financial transaction processing solutions to financial institutions and corporations around the world.
