

VECTOR: Presentment

AN IMAGE EXCHANGE SOLUTION FOR FRAUD REDUCTION AND TRUNCATION INITIATIVES

INTRODUCING OPERATIONAL TRANSPARENCY FOR SIMULTANEOUS ONE-PASS ECP

This technology allows you to receive electronic cash letters with little impact on normal processing flow. The Operational Transparency Module means your financial institution can choose to do both one-pass and two-pass ECP at the same time and with paper coming from multiple sources!

One-pass ECP allows you to avoid the item capture pass, which increases the power of the system to reduce costs.

Unlike other systems, the new Operational Transparency Module uses either one- or two-pass solutions for on-us cash letters and it can use two-pass for mixed cash letters. The result? Even more cost and time savings for your institution.

SEND AND RECEIVE RNOTES

VECTOR: Presentment offers another feature which lets your financial institution send and receive RNOTES. With the move toward electrification and truncation of paper, enabling your system to use this electronic fraud reduction platform is a necessary step toward meeting your profitability goals.

ENABLING MODULE LETS VECTOR: PRESENTMENT WORK WITH OTHER VECTOR PRODUCTS

Metavante Image Solutions realizes the importance of a complete item processing system, the Enabling Module which allows VECTOR: Presentment to work with other Metavante Image Solution products, including VECTOR: Notification and VECTOR: Adjustments. These products combine to let your financial institution move seamlessly toward electrification.

HAVE ECP AND VECTOR: PRESENTMENT IN PLACE WHEN PAPER IS TRUNCATED

Financial institutions will eventually agree to truncate paper. VECTOR: Presentment is ready today to begin the process of electrification of paper. It is a strategic system which will be in place to be the electronic delivery mechanism preceding image return processes. VECTOR: Presentment is the most flexible, feature-rich, integrated ECP solution available today. Because it gives you the control to choose how ECP is handled, your company will see reduced costs and increased fraud protection. Choose VECTOR: Presentment today to enhance the way your financial institution operates and ensure you're ready for an electrified future.
